

# E72

PARDO  
YACHTS

# E72

The new Endurance 72, the second model in the range, continues the philosophy of its predecessor, the Endurance 60, maintaining a strong family feeling that is clearly expressed in the cockpit area and the walkaround deck. With the Endurance 72, Pardo Yachts further elevates the brand's iconic lines, offering more space, greater volumes, and uncompromising comfort. These distinctive features make the Endurance 72 an ideal choice for those seeking more space, more volume, and comfort on board.

## OPEN UP TO THE SKY

The flybridge, with 27 sm<sup>2</sup> of surface, introduces an exclusive feature of the range: an Electric-hydraulic Bimini equipped with led lights, providing elegant illumination while offering reliable shade and protection for a significant part of the of the flybridge.

## SIDE TERRACES

Thanks to the fold-down side terraces and the aft platform, the boat can obtain a generous chill-out area of over 61 sm<sup>2</sup>, directly overlooking the water. In addition, at the stern we find a garage with hydraulic opening capable of accommodating a tender up to 3,9m in length.

## INTERIORS WITH A SENSE OF FREEDOM

The Endurance 72 combines design, elegance, and living comfort, with a special focus on the interiors, which are the heart of the project. The spaces, designed to offer the highest level of livability and luxury, feature high-quality finishes in standard selection Grey Walnut and a layout carefully planned to ensure comfort and practicality in every area.

The interiors of Endurance 72 have been curated by BURDISSOCAPPONI Yachts&Design, starting a new collaboration for Pardo Yachts. Elegant grey walnut veneers with matt finish, wallpapered bulkheads on the lower deck, technical fabrics for the tiles, white Corian for the kitchen countertops and sandcolored resin in the bathrooms are just some of the stylistic choices of the new designers.

FULLY LOWERABLE  
GALLEY WINDOW

The layout features a galley on the main deck with four cabins and five bathrooms below deck. In this arrangement, the kitchen is positioned aft of the main deck to easily serve the outdoor spaces. Facing the kitchen, the dining area opens completely onto the terrace via a side door to emphasize the connection between indoor and outdoor spaces.

At the bow, a large sofa with a chaise longue and a smaller couch create the lounge area, perfect for watching the flat-screen TV, which is also connected to the helm station, offering 270° visibility. In this area, the sofa and the driver's seat are seamlessly integrated around a large dresser.

## A NEW CONCEPT

The centrally positioned owner's suite takes advantage of the maximum beam of the boat. It is generous in size with elegant interiors, a sofa and spacious wardrobes.

## THE POWER OF THE LIGHT

The lighting design is also a novelty: the combination of LEDs and spot lighting in the ceilings ensures a more intense and concentrated brightness where required. Finally, the matt black finishes of the bathroom accessories, door handles and lighting elements underline the yacht's sporty yet sophisticated character.
